

THE SMART WAY TO EXPLORE ALLERGY!

ALEX²
ALLERGY EXPLORER

KEY FEATURES

TEST A PHALANX OF ALLERGENS!

- IgE multiplexing (ELISA-based) of close to **300** allergens
- 117 extracts & 178 molecular allergens
- 50+ unique molecular allergens
- Total IgE included

NEAR CCD FREE ALLERGY DIAGNOSIS!

- Clinically irrelevant IgE antibodies against cross-reactive carbohydrate determinants (**CCDs**) are **automatically blocked**
- High specificity & low interpretative burden

MULTIPLEX ON DEMAND!

- Avoid paralysis by analysis
- Choose from 15 pre-defined software panels (based on allergen groups or symptoms)
- Generate your own ALEX² allergen software panel
